## Why Localscape?

Localscapes are designed to thrive in Utah's unique climate. Whether you're planning to install a new landscape or simply looking to improve the one you already have, the Localscapes method can help you create a landscape that looks great while also simplifying irrigation and improving water efficiency.

### TAKE A CLASS!

ALL 5 CLASSES ARE  
AVAILABLE ONLINE,  
ON-DEMAND, & READY  
WHENEVER YOU ARE.

**LOCALSCAPES.COM**

### INTRODUCTION TO LOCALSCAPES

Learn the basics of how to get a  
landscape that thrives in Utah.

### LOCALSCAPES DESIGN WORKSHOP

Start with a base map of your property and finish  
with a landscape design that is ready to be  
installed. Localscapes University is recommended  
before taking this hands-on course.

### LOCALSCAPES UNIVERSITY

This 2-hour course will teach you how to create a  
Localscape and covers topics including design,  
irrigation basics, planting, and maintenance.

*\*Also available as a Live Webinar (see dates online)*

### CREATING WATERWISE PARK STRIPS

Want to start with a small project? This class will cover  
everything you need to know to switch your grass park  
strip to a more Utah-friendly design.

*\*Also available as a Live Webinar (see dates online)*

### LOCALSCAPES IRRIGATION WORKSHOP

Install irrigation like a pro. You will get practical tips  
and visual examples to help you plan, install or  
retrofit your existing system, to an efficient irrigation  
system for your yard.
